

Taking care of my health while I am self-isolating

I keep up my regular good habits.

I get up and wash at the normal time.

I plan out my day.

I don't go to bed too late.

I make sure I eat healthily.

I eat at regular mealtimes.
I don't snack between meals.

I am careful about drinking and smoking

I don't drink too much alcohol
and I don't smoke more than usual.

I do physical activities.

I do exercises at home.
I dance.

I can go into my garden
whenever I like.

I can go for a short walk
near my house.

I stay in contact with my friends and family.

I can call them.
I can make video calls with my loved-ones.

If I am worried or scared or if I feel unwell:
I contact a friend or family member.

I organise my day - I can do lots of different activities.

I keep my house tidy.
I tidy up, let in some fresh air, do the housework...

I do activities that I enjoy.
I draw, I do a jigsaw, I do crafts, I cook...

I can also share my activities
with the people I live with.

I take it easy.
I read a book, I listen to music, I watch a film...

I don't spend too long on my screen.

I don't watch the news too much.

The news might make me worry
